YOUR BLOCK / YOUR BRIEF

A more comfortable street starts with what you already know.

Hello Jordan Lee,

You mapped the west side of your block after sunset. Young trees do not yet shade the brick walk, but neighbors already gather under the awning at number 42.

SUGGESTED FIRST MOVE

Pilot a shared shade porch

A small, reversible setup can serve evening gatherings while new trees mature.

We will bring shade maps, translated handouts, water, and a simple way to rank options. You bring the routes, routines, and memories that no model can see.

With care,

The Common Ground field team
